MEDICAL BILLING OPERATION MANAGEMENT SOFTWARE

Manage Employees

The screenshot shows the main interface of the software. The top navigation bar includes 'Admin', 'Customers', 'Job Management', 'Employees', 'Reports', and 'Logout'. The 'Employees' menu is expanded, showing options: 'Employee Admin', 'Timesheet', 'Timesheet Mgmt', 'Payroll Hours', 'Payroll Instructions', and 'Current Activity'. Callout boxes provide details for several of these options:

- ⇒ Manage Employee Demographic Info**: Points to a screenshot of a form for entering employee details.
- ⇒ Online Timesheets**: Points to a screenshot of a timesheet entry interface.
- ⇒ Manage Timesheets**: Points to a screenshot of a timesheet management screen.
- ⇒ Manage Payroll**: Points to a screenshot of a payroll management screen.

Manage Clients

⇒ Manage Client Info

⇒ Query Client Lists

⇒ Add Special Processing Instructions

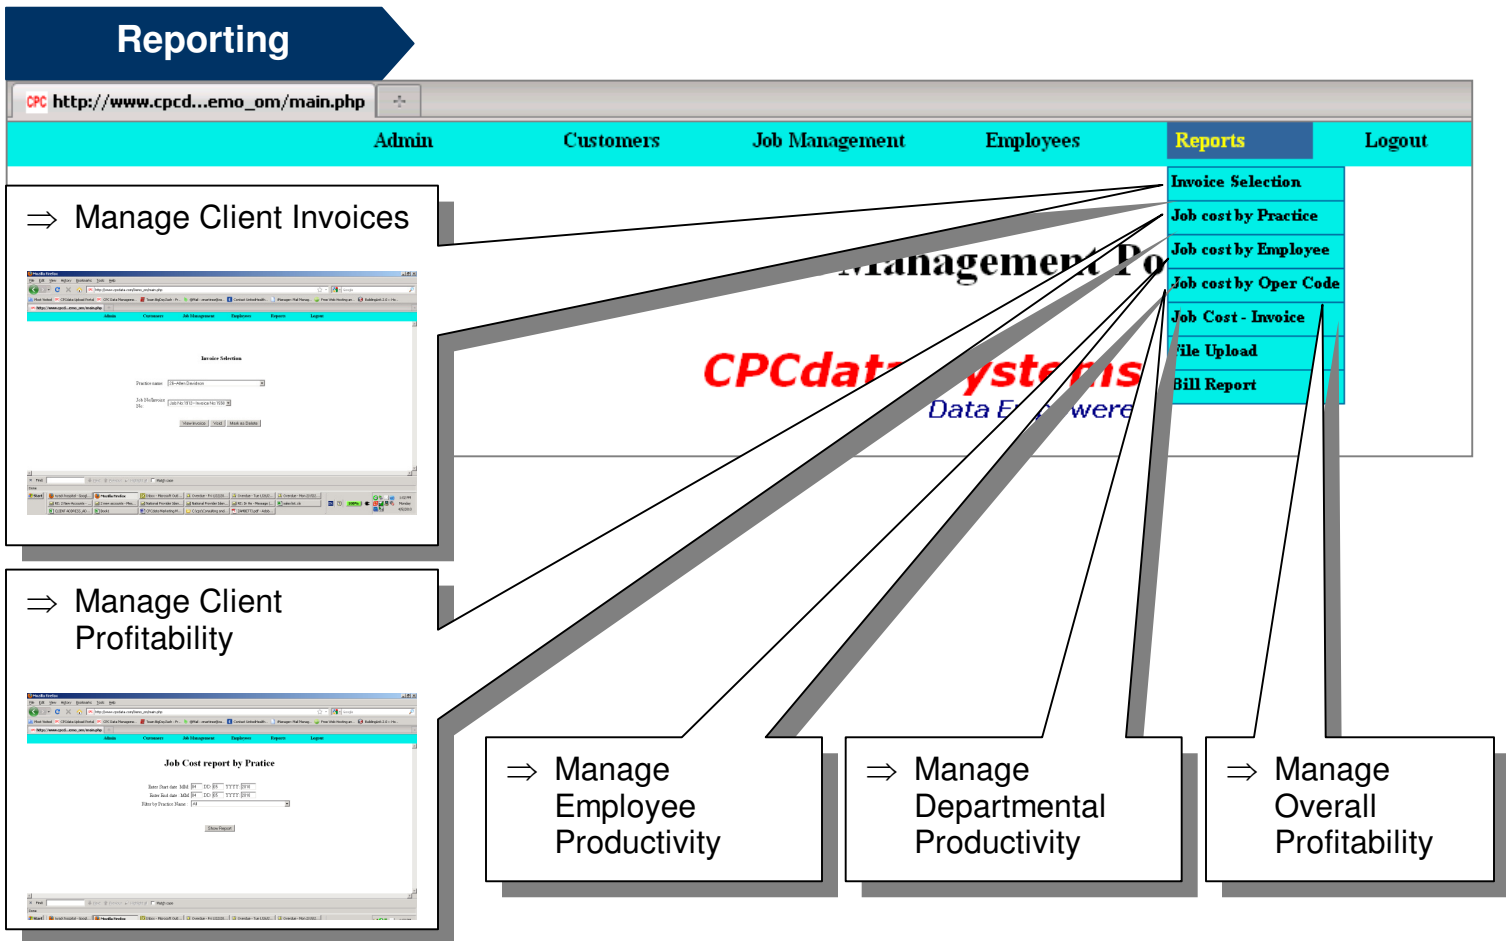

Manage Work

⇒ Manage incoming work

⇒ Create Quality Control Tools

⇒ Create Bulk Invoices for Month End

⇒ Create Bulk Invoices for Month End

Product Overview

This software product is a must have for all medical billing and revenue cycle management companies. Not only is this product sold only to billing companies but it was designed and created by an existing multi-million dollar billing company to increase profits and reduce costs. Because of the product's success, CPCdata has since exited the medical billing business to focus 100% of its efforts on providing excellent products and services to billing companies.

The amount of time saved on bookkeeping, accounting, employee and client management will not only pay for the software but also add valuable insight into you business that will result I higher profits and a better-run company.
